I've used Green Dumpster multiple times for general junk removal and when cleaning out our garage. They've always been available right when I need them with multiple options to fit our needs, and the prices are always reasonable. The drivers arrive on time and leave the dumpster right in my driveway (or wherever you may need them to). Customer service is always responsive and flexible with timeframes for how long you may need their dumpsters. Pickup has never been an issue and always right on time. The Green Dumpster is the only company I will use (and the only one you should use too!)

I've used the Green dumpster for both big and small jobs at my home. It was a great experience each time. The drivers have all been friendly and show up to drop off and pick up when they are supposed to. One driver even showed my kids how the truck worked (my toddlers loved it!). Great local family owned business. Great service, great price, nice staff, I wouldn't rent from any other company.

Ordered a dumpster the other day for a garage clean out. The person on the phone was very helpful and informative. Even brought the dumpster same day. And they were able to put it right where I needed it. The dumpster was very clean no graffiti the driver was helpful all around great company would definitely recommend them and use again

Easy company for me to deal with. I needed a smaller size bin. Delivered quickly, paid for easily. Phone answered by a person. The other companies I called started off with the advisement that they are recording my call. I don't want that being recorded for such a simple transaction. I like this company.

Good value and easy to work with.

Will be my third time using them now. They have always provided same day drop offs, and this time they got my dumpster to my store within 20 minutes of my phone call!

What an amazing company! I needed a dumpster for some garage cleaning and this company delivered. Very reasonable pricing and easy scheduling. Delivery and pick up were as smooth as a baby's bottom. Sandy, the lady who scheduled the delivery and pickup was kind, friendly, and a pleasure to deal with. If I could give 10 stars I would. The Green Dumpster all the way!

After 30+ years at the same address, we decided to move. We contacted The Green Dumpster (TGD), based on numerous reviews, and we are glad we did. TGD dropped off a 40 cubic yard bin about 2 hours after we called. I had no idea just how much stuff I should have thrown out years ago. The 40 cubic yard bin held it all. It took much longer than we expected and as the pickup day arrived, we needed a little more time so we extended for one day (additional \$25.00). Emma offered to also put us on the pickup list for the following afternoon which gave us another half day. Customer service has become a lost art. The Green Dumpster has definitely found it. The only thing they could have done to be more helpful was to come out and help us clean! Thank you Green Dumpster!!

The Green Dumpster rocks!!! So many places can be such a hassle we have had issues with having dumpsters picked up and billing issues with other companies but that is not the case with The Green Dumpster. We never have any issues with them. They are always very clear about what can and cannot go into the dumpster, fees are clear and we have not had any issues with billing. The company I work for has to rent a low boy once or twice a year to clean out mud and stone from the work area. Our business is located on a very narrow street but they always handle getting the low boy in and out, even though sometimes getting it out can be challenging. Completely professional, reasonably priced, I highly recommend and will continue to use again and again.

I was just winging it with my business and Sean got me organized enough to give me more free time with my family and more money from my business. It's like I have a new lease on life, all thanks to him!

Emma rapidly responded to my initial inquiry, clearly communicated everything I needed to know and just made a much needed purge easier than we could have imagined. Another awesome local business I am happy to work with. Thanks Emma!
